

Philanthropy Services for Organizations

The time is now to plan for impact in your community! In the coming decades, more than \$80 trillion will transfer from one generation to the next and that could mean a transformational gift to your church or nonprofit. The Philanthropy team is available to guide you through the creation of long-term sustainable funding strategies to support your mission and ministries, which often includes the establishment and growth of an endowment. Let us be your partner to empower leaders, churches, and nonprofits now and into the future.

CONSULTATION

Our team provides expert guidance to build long-term funding for your organization through endowment and gift planning education and marketing. Each organization has a unique culture of philanthropy, and our goal is to help you build a strategy that honors your history and reflects your goals.

“At Texas Wesleyan, we deeply value our partnership with Texas Methodist Foundation. Their support helps us resource our mission and vision with long-term sustainability in mind — especially as we expand initiatives that provide meaningful tools and guidance to our donors and supporters. It’s a personal and strategic connection that empowers our advancement efforts and strengthens our shared commitment to transformational impact.”

MICHELE BOILLOTAT
VP for Advancement,
Texas Wesleyan University

EXPERTISE

We have extensive experience in personal philanthropy and organizational strategies to drive philanthropic support, including gift planning for individuals and families.

“I found a way to make sure my faith continues to shine through my church for generations. I want this church to be here long after I’m gone, for my daughter and her family and anyone else who needs a place to land.”

— SCOTT ROBERTS

Created The Roberts Family Endowment through Texas Methodist Foundation to support his church
